CATT Organizes Homeowner-Friendly Seminars for Upcoming Truckee Home & Building Show

The Contractors Association of Truckee Tahoe (CATT) is pleased to announce the lineup of speakers and topics for the "Green Building Symposium," one feature of the 18th Annual Truckee Home & Building Show. The Show is set for Saturday and Sunday, May 29 and 30, at the Truckee High School. Attendance at the Symposium is free with Show admission.

CATT organized the topics and speakers to coincide with the Green building focus of the Show. The 16 speakers cover a wide range of topics, from AB 811 Financing to Zero Energy Homes. Each speaker has a 15 minute segment. Many of the speakers are also Show exhibitors. All speakers will deliver their presentations in the Green corner of the main gym.

CATT Executive Director Pat Davison stated, "We hope homeowners can take advantage of the wide variety of topics to become more informed about green programs, products, and new technologies. Sit for one or sit for all of the segments! Speakers are experts in their field and anxious to help homeowners get answers to their green building questions."

The Contractors Association of Truckee Tahoe is a non-profit, regional trade association composed of 250 member companies representing the broad spectrum of building trades and related professionals. For more information, contact Executive Director Pat Davison 530-550-9999 or info@ca-tt.com
